Campaign Overview

Seat Belts Campaign Summary

One of the most important choices drivers and passengers can make to ensure their safety while in a vehicle is to buckle up. Thankfully, many Americans already understand the value of wearing their seat belt – the national use rate was at 89.6% in 2018. Furthermore, in 2017 it was estimated that 14,955 lives were saved by seat belts. However, there were an estimated 2,549 additional lives that seat belts could have saved in 2017 if everyone had buckled up.

While failing to buckle up is dangerous all year round, fatalities increase during the Thanksgiving holiday period due to the heavy volume of traffic on the roads. This campaign seeks to encourage everyone to buckle up – every trip, every time.

Thanksgiving Holiday Period Summary

Three campaigns will run during the Thanksgiving holiday period to help counter the increase in traffic fatalities during this time – two campaigns for impaired driving and one campaign for seat belt use. These campaigns aim to educate the most susceptible audiences and prevent accidents and fatalities. Here is an overview of the timing for each campaign:

NOTE: This playbook only contains the content for the Thanksgiving seat belt campaign
